

Wyoming Department of Revenue - CAMA Data Download File

The CAMA Data Download File has been pulled from each of Wyoming's 23 County Assessor's CAMA systems for the last completed assessment year. This data extraction is normally extracted around the first of June and contains the assessment information collected during the prior calendar year. The data is provided on the Wyoming Property Tax Division's website in a Microsoft Access 2003 database which has been compressed for a smaller download.

The download contains nine data tables which contain a large amount of data that covers all twenty-three Wyoming counties. Most of the tables can be linked together by joining the JURISDICTION, ACCOUNTNO and TAXYEAR fields. The DOCUMENTS table can be linked to the ACCOUNT table by using ACCOUNTDOCUMENTS table. Simply join the JURIDICITION and ACCOUNTNO fields between ACCOUNT and ACCOUNTDOCUMENTS table and then join the RECEPTIONNO between the ACCOUNTDOCUMENTS and DOCUMENTS tables.

Please note, while the Department of Revenue provides this information free of charge, the data contained in these datasets are the sole responsibility of each individual county jurisdiction. Any questions or concerns regarding the data should be directed to the individual county jurisdiction for consideration.

The following tables and data fields are provided in the download:

ACCOUNT	ACCOUNTABSTVALUE	IMPROVEMENT	IMPROVEMENTBLTAS	IMPROVEMENTDETAIL	OWNER	PROPERTYADDRESS	DOCUMENTS	ACCOUNTDOCUMENTS
