| Create Personal Property Profile including new fields | Dave Chapman | Kevin OConnell | David - The response per Stacey is that we felt we had enough information to bid the hours on this workorder. We would like to get approval to move forward with this workorder and YES we will need to get further details to be able to put this in place. Basically, CCI is asking you to approve this is where you want CCI spending the hours bid for this workorder (verses possibly spending those hours elsewhere). If the answer is YES the DOR would like CCI to move forward, then you can approve and we will take the next step of obtaining more details around this workorder | 3/24/2005 5:48 PM |
| Create Personal Property Profile including new fields | Kevin OConnell | Dave Chapman | I am not sure the date will work. We are willing to use ad hoc reporting, with CCI's assistance, to create something to use in the mean time. This work order does not contain enough detail at this time. Should we develop the content now? | 3/22/2005 3:54 PM |
