

County Name	Question 1	Question 2	Question 3	Question 4
	If not, what changes would you recommend before this is approved?	How do you vote for this enhancement?	How important is this issue to you?	Does this template meet the Wyoming requirements for an amended assessment notice (aka NOD)?
Hot Springs	Too detailed. We currently just send an amended assessment schedule when changes are needed.	Nea	Important	Yes
Natrona	The estimated dollar amount needs added. Only last year and this year values, and I'd rather it read, "Market Value" not "Fair Value".	Nea	Critically Important	No
Laramie	I would prefer that you leave off the previous assessment info. Please add estimated tax with the new assessed value multiplied by 2006 mill levy. I am concerned that the NOD will not be ready by March 19th. If it is this or nothing by the 19th, I will accept this.	Nea	Critically Important	No

County Name	Question 1	Question 2	Question 3	Question 4
Converse	It does not have estimated tax based on prior year mill levy. I'm not sure we need the previous assessment, I'm only interested in the amended assessmetn. Too much informaiton on that page, just use amended values and then add the estimated taxes.	Nea	Critically Important	No
Goshen		Yea	Critically Important	Yes
Weston	It does not give estimated 2007 taxes.	Nea	Critically Important	No
Washakie	It must have estimated tax dollar like the NOV doesn't it?	Nea	Critically Important	No

County Name	Question 1	Question 2	Question 3	Question 4
Sublette	There is no listing of the previous year's or estimated current year's tax amount. Veterans' exemption and special district tax amounts are not addressed.	Nea	Important	No
Carbon	No estimated tax for 2007 based on 2006 levy. Too much information on previous assessment. Would prefer to see total market, total assessed and the level of assessment. Looks to confusing with so much information. No veteran information.	Nea	Important	No
Park		Nea	Critically Important	No
Niobrara	I do not use a different form for a change of value. Just type "amended" on an assessment notice.	Abstain	No Impact	No

County Name	Question 1	Question 2	Question 3	Question 4
Lincoln	I do not see where it shows previous year mill levies and taxes and current year with prior mill levy and current year estimated taxes. Therefore does not meet statutory requirement. I think that prior year and amended is confusing - I would think that it is an amended schedule. I think current year for detail is okay but when comparing last years values and taxes to this year that info should be summarized for simplicity for property owner.	Nea	Critically Important	No
Campbell	We do not use a different form for a change of value. We just rerun the assessment schedule and stamp it revised. It should contain the value and taxes for the previous and current year. It should say market value instead of fair value.	Nea	Important	No
Sheridan	I agree with everyone elses comments. I currently just send a revised copy of the assessment schedule, but I would like to use a different form.	Nea	Important	No
