

Created By	Question 1	Question 2	Question 3	Question 4
	Does this form meet with the Wyoming requirements for a veteran's property tax exemption form?	If not, what changes would you recommend before this is approved?	How do you vote for this item?	How important is this issue to you?
Shelley Deromedi	Yes	I believe it meets the standards, but could be not as detailed for years subsequent to the initial sign up. I initially thought this was the end result of the Standards Committee work. We should use the form developed by the committee.	Nea	Important
Brenda Arnold	No	The initial application should include a place for all of the information required by the state vets system (entry/discharge dates, branch etc). In following years it would not be necessary. I have developed our own form for use within our office.	Abstain	No Impact
Dixie Huxtable	No	I do not want to ask the taxpayer the same information each year. Once they have met the qualifications, it should only be a request for the exemption to be used on real property or vehicle. I think a simpler form for subsequent years would be better.	Nea	Important
Debbi Surratt	No	use the form the association created	Nea	Important

Susan Dewitt	No	Much to long & complicated. I can hear the Veteran's complaints already! How about something simple and one that can be submitted one time only.	Nea	Important
Elaine Griffith	No	The Standards Committee was asked to come up with a veteran's property tax exemption form. The one submitted by the committee is preferable to this one - all info on 1 sheet. Has affidavit for new vet and also claim for previously qualifying vet all on one form.	Nea	Critically Important
Tina Conklin	No	It probably meets the state requirements. However, this is the form they need to fill out when they first sign up. Not to be used every year. I vote to use the one the committee submitted.	Nea	Critically Important
Kathy Treanor	No	Should have everything the database requires as well as what is necessary to qualify the veteran the first time. There should be just a signature line for subsequent years or we'll fill up the office with paper for the veterans exemption alone. We have a form that is adequate we use.	Nea	No Impact
Janet Montgomery	Yes	The form as it is written would be fine for the first time a vet registers with us; however, once the vet is in the system it is redundant to request Section 1 c. Section 2 could be simplified into one statement "Do you wish...? My principal residence is owned by only me and/or my spouse, or is subject to a trust created by or for the benefit of only my spouse or me. Section 3 could be simplified the same way. Social security number could addressed in the name address header. I personally like to keep forms simple.	Nea	Important
