

Survey Name: Hardware Deployment Questionnaire

Survey Description: This questionnaire is designed to help identify some of the hardware needs in the county. You will most likely need to consult your IT staff before answering these questions. This questionnaire will require participation from all twenty-three counties. The deadline for completing the survey is Friday, March 27, 2009. Remember, your answers here will help determine the amount and type of customization the Department is able to incorporate into the deployment plan!

Time Created: 3/17/2009 12:20

County	What type of server fits best in your current IT environment?	The Department encourages the County to roll the CAMA server into their on-going data backup strategy. Do you require a backup hardware tape drive in the new CAMA server?	The Department is planning on shipping all of the ordered workstations, field devices and printers directly to the county. The county may then start installing the hardware upon arrival. Will your county need assistance in setting up the hardware by the	The Department is working on a process where a county could enhance a basic workstation configuration to include extra features or capability, however, the county would have to pay for the additions. Would your county be interested in enhancing workstations?	How many workstations do estimate that you would wish to enhance?	If you are considering extra features on the workstation, please check those items listed below.	Please list any other enhancements or requirements that you would like the Department to consider.
Carbon	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	7	Monitor Size;#RAM	We would like to be able to run Windows Vista Business and Office 2007
Big Horn	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	8	Monitor Size;#RAM	
Converse	Stand Alone Tower	County will handle the backup needs.	No, the county will install the hardware.	Yes	2	CPU Speed;#Monitor Size;#RAM;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	I would like to have dual monitors for each station. We will 2 workstations will need enhanced ram and speed. My IT people have suggested a 64 bit O/S on all workstations with 4 G ram and core2 quad processors for the 2 'suped up' stations. They suggest at the cost of ram right now it would probably be cost effective to do them all. Remember, most of this is a foreign language to me, but I trust my IT people.
Laramie	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	25	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer	Need upgraded processor memory (8GB minimum)for approx 12 that use ArcView & SPSS, all (25) would require upgraded graphic card (512 minimum), 2 would require DVD writer. We will comment on software when info becomes available.
Weston	Stand Alone Tower	Please include a backup tape unit.	No, the county will install the hardware.	Yes	4	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	
Sweetwater	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	12	CPU Speed;#Monitor Size;#RAM;#DVD Writer;#Wireless Mouse & Keyboard	
Sheridan	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	4	CPU Speed;#Monitor Size;#RAM;#Video Card;#DVD Writer	Dual monitor capabilities and capable video cards
Campbell	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	No	0	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	Dave...my IT department was asking if you would consider a blade instead of a rack mounted server?!
Goshen	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	5	Monitor Size;#DVD Writer;#Wireless Mouse & Keyboard	Please do not roll out a product that has not been tested well in advance! Goshen County IT I would like dual monitor capability and may need to boost the RAM for use of ESRI mapping products. Debbi
Natrona	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	19	Monitor Size;#RAM;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	Windows 7 Dual Monitor Capability Internal Speakers Upgraded Processor memory for SPSS & GIS on 4 Upgraded graphic card for 4 Upgraded DVD writer for 4
Uinta	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	7	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	WINDOWS XP, DUAL MONITORS FOR AT LEAST 2
Washakie	Stand Alone Tower	County will handle the backup needs.	No, the county will install the hardware.	Yes	5	Monitor Size	WE WOULD EITHER LIKE 2 MONITORS OR LARGER MONITORS FOR ALL 5 WORK STATIONS.
Hot Springs	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	2	CPU Speed;#Monitor Size;#Hard Drive Size;#Video Card	Dual monitors for all workstations.
Niobrara	Stand Alone Tower	Please include a backup tape unit.	No, the county will install the hardware.	Yes	4	Monitor Size;#Hard Drive Size;#DVD Writer;#Wireless Mouse & Keyboard	We can set up the hardware but may need assistance for re-setup of the VPN connection to the new server.
Crook	Stand Alone Tower	Please include a backup tape unit.	No, the county will install the hardware.	Yes	6	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	I would like the Dual monitors on 3 workstations and the Arcview & SPSS on 2 of them.
Platte	Stand Alone Tower	Please include a backup tape unit.	Yes, the county will require assistance.	Yes	1	Wireless Mouse & Keyboard	DUAL MONITOR CAPABILITIES

Lincoln	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	10	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	
Park	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	5	CPU Speed;#Monitor Size	If the program would use the full screen now, it would offset the need for a bigger monitor.
Sublette	Rack Mounted	Please include a backup tape unit.	Yes, the county will require assistance.	Yes	8	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer	The above answers are tentative. Everything depends upon the basic hardware the state is providing.
Fremont	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	14	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	o/s not Vista but Windows 7 or XP Pro, Monitor size 17" or 19", Office package not Home Edition but Office 2007 with Access if CCI can use instead of runtime 2002, at least duo processor > 2.99 GHZ, Ram 4GB, HD > 7200, 150 GHZ, Video Card ati 4870 or better
Albany	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	9	CPU Speed;#Monitor Size;#RAM;#Hard Drive Size;#Video Card;#DVD Writer;#Wireless Mouse & Keyboard	
Johnson	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	3	CPU Speed;#RAM;#Wireless Mouse & Keyboard	possibly dual monitor on a couple of workstation
Teton	Rack Mounted	County will handle the backup needs.	No, the county will install the hardware.	Yes	8	CPU Speed;#DVD Writer;#Wireless Mouse & Keyboard
